The 2022 Guardian ad Litem Volunteer Virtual Conference - "**Building Resilience and Inspiring Connections**" is brought to you by the Florida Guardian ad Litem Foundation through the sponsorship of Sunshine Health and Florida State University.

On Tuesday, June 14th, and Thursday, June 16th, a full day of online workshops and networking opportunities will be provided for you and your fellow volunteer advocates from across Florida.

We know COVID restrictions have made life challenging during the past few years. However, every Guardian ad Litem volunteer and staff member has shown resilience in extreme adversity. You have inspired connections across the state, from within the Guardian ad Litem Office itself, with community partners, parents and caregivers, and your peers. You are appreciated, and we thank you for all the ways you selflessly try to improve a child's life!

As you look through the agenda of what is offered, you will find that each workshop has been specifically selected for a reason. The workshops provide guidance in mentoring, skills development, and awareness to build on your advocacy on behalf of children in Florida's dependency court system.

The 2022 Guardian ad Litem Volunteer Virtual Conference is sponsored by the Florida Guardian ad Litem Foundation through the generosity of Sunshine Health and Florida State University.
